

ITC Mera I Pack: Safe Area Filtration Unit

Equipment Description:

The I Pack Filter unit for Maintenance of hydraulic and gear oils. Removes both particle and water contamination.

Requires minimum of operator time and maintenance due to its high degree of instrumentation:

High flow range 0-5500l/hour

Bypass / Automatic shutdown

Equipment ID:	FU006
Overall Dimensions (LxWxH):	
Lifting Arrangement:	Carrying Handles / castor wheels
Gross Weight:	45 Kgs (Approx)
Design Temperature:	-20°C - +40°C
Electrical Supply:	110v
System Type:	Open Loop (Pneumatic Driven)
Max Air Supply:	10 Bar
Pump:	integral
Filtration:	??
Earthing:	2 OFF M12 Earth Bosses
Designation:	Safe Area / CE Marked
